Dear Sir:-

In accordance with your instructions to our superintendent, we beg to submit herewith an estimate for changing radiators at the Neumismatic Building, 165th Street. The work to be done is as follows:

Disconnect and remove one 10 section 38" radiator.

Furnish and install a 16 section window radiator in the place of the radiator which was removed, inclose the new radiator with a galvanized iron casing, this casing to be lined with asbestos mill board. Leave proper openings in the casing for connecting registers.

Furnish four brass grills for setting in the front and top of casing.

We propose to furnish labor and material to perform the above work in the best manner for the sum of One Hundred and Nineteen Dollars (\$119.)

A cabinet work enclosure is to be built around the galvanized iron casing, and we understand that this cabinet work will be done by another contractor without expense to us.

Hoping to be favored with your order, we remain,

Very truly yours,

John Smith
Secretary

Gentlemen:-

In answer to your telephone message we beg to submit herewith an estimate for changing radiators as explained to our superintendent.

We propose to disconnect two radiators which are now standing in the corners of the north room on the top floor, make the necessary alterations to piping, and furnish and connect two radiators which are to be placed under the windows. The radiators to be of the low pattern so as not to extend above the window sills.

We propose to furnish labor and material to perform the above work in the best manner for the sum of Ninety Four Dollars (\$94.).

Hoping to be favored with your order, we remain,

Very truly yours,
